## **Tailgate mirror.**

### **How to remove and refit mirror glass.**

New mirror glass can be bought from me, a Mazda main dealer, EBay or other supplier.

Break the old mirror glass to fully remove it.

Heat up the plastic surround until it expands. (I use the workshop heater, you could use a hairdryer.)

The heat will expand the plastic surround just enough for the new mirror to drop into place.

Don't turn it upside down until it's cool, or the new mirror will drop out.

Once cooled it's a neat fit.
